Undergraduate Research Engagement in Food and Agriculture Cyberinformatics Tools and Science

Open to all UC Merced first-year, second-year and transfer students: PAID summer research experience in agriculture!

Apply today!

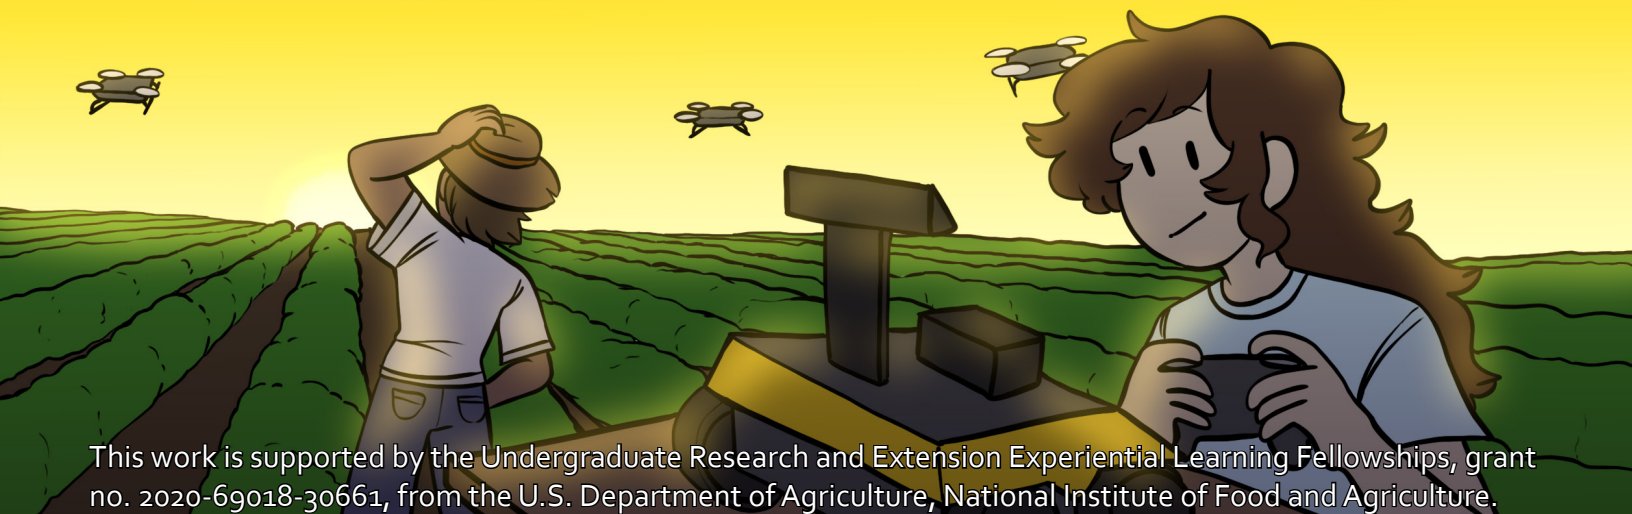

UC Merced is hosting a six-week summer program all about agriculture for students entering the UC. Intern with UC Merced faculty and learn research, study, and life skills while making friends. You will learn about:

- Food systems production and processing,
- Novel technologies for the future of agriculture,
- Natural resources management and climate change adaptation,
- And more!

You will experience campus life with guaranteed on campus housing for the duration of the program. Friends, mentors, and resources will help you succeed. Start the next chapter in your academic life and career with all the FACTS!

Application due May 1, 2021
